BOOTS and SHOES

We are constantly seeking to make our BOOTS AND SHOES ideal creations in their respective spheres. Where strength is an object, everything that can tend to that end is eagerly sought for. Where it is shape or style that is paramount, we get our goods manufactured by those whose taste and skill in such matters is unquestionably great, and so on through the whole category of good points. Thus dealing with manufacturers who are specialists, and being able to do a large business with them, we get not only their best work, but important concessions in price, which enables us to sell our goods for the smallest prices consistent with good work. We keep all sizes, and so fit perfectly, which greatly adds to the comfort and durability of our Shoes.

MEDICAL.

DENVER, Col., Aug. 20, 1882.

GENTS: I cannot find words with which to express my gratitude to you for the cure Swift's Specific has effected in my case. I was afflicted with the horrible blood disease for three years, and after spending some time at the Hot Springs, considered my case a hopeless one. I used only one dozen small bottles of S. S. S., and there is not a sign of the disease remaining. My sores are all healed, my throat is entirely well; I am

rid of that terribledisclerk, I have seen so many hundreds of men dosed with Calomel, Iodide of Mercury and Iodide of Potash, until they were made complete wrecks, that I shudder to think of the misery which has been brought on

the human family by the use of Mercurials for Blood Diseases. It is a crying shame that physicians will not acknowledge the merit of your GRAND Blood Medicine. Use my name as you wish. I refer you to my present employers, or to Messrs. Collins Bros., St. Louis. J. H. RAIF, Broadway Pharmacy, Denver, Col.

If you doubt, come to see us, and we will CURE YOU, or charge nothing. Write for particulars and a copy of the little book "Message to the Unfortunate Suffering."

\$1,000 REWARD will be paid to any Chemist who will find on analysis of 100 bottles of S. S. S. one particle of Mercury, Iodide of Potassium, or any Mineral Substance. SWIFT SPECIFIC Co., Propri-

MIDDLE-AGED MEN.

There are many at the age of thirty to sixty who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smartling ourning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of a thin milkish bue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs. Office hours—10 to 4 and 6 to 8. Sunday, from 10 to 11 A. M. Consultation free.
